*  Comment. The ammunition shipments from Pfaffendorf to Elsholz near Jucterbog, Minow, Parchim, Grossenhain, and Brandis are probably bound for AAA units stationed at the airfields at those places.

***  Comment. The average volume of carloads during the second half of June 1952 was 22 cars per day which corresponds to military supply traffic during the period of the second half of May to the first half of June and is considered normal. There were no extraordinary shipments or traffic routings.
